

V-DRIVE T

Screw Compressor

NEW!

**Two-stage compression.
Maximize efficiency.**

THE NEW GENERATION V-DRIVE T

HIGHEST EFFICIENCY

✓ Over 15% energy savings compared to single-stage systems – for minimal operating costs

NO IDLING, NO LOSS

✓ The variable speed control prevents costly idle times and boosts efficiency

RELIABLE AND ROBUST

✓ Consistent performance thanks to low thermal load and minimal differential pressure

EASY TO SERVICE & MAINTENANCE-FRIENDLY

✓ Maintenance and servicing are simple, quick, and cost-effective

WHY ENERGY EFFICIENT?

Energy savings

Two-stage compression

Variable speed control

Optional heat recovery system

Protecting the environment

Save money

Since energy costs account for the largest share of lifecycle costs, ALMiG continuously optimizes its compressors. The V-Drive T impresses with two-stage compression, a variable speed drive, and outstanding efficiency. With heat recovery, additional heating energy can be saved.

V-DRIVE T

EFFICIENCY REDEFINED

The new V-DRIVE T combines two-stage compression with intelligent variable speed control—for maximum energy efficiency, reliability, and digital connectivity. It also impresses with easy operation and a maintenance-friendly design.

Drive & Compression

- Two-stage integrated compression in a single compressor unit
- Variable speed drive for demand-oriented delivery adjustment
- Highly efficient permanent magnet motors
- Motor with energy efficiency class IE5, protection class IP55, insulation class F
- Low thermal load and differential pressures
- Especially quiet and durable operation
- Power range: 90 – 250 kW

Digitalization & Connectivity

- Modern control system with IoT connectivity for Industry 4.0
- Access to the digital service platform COMPASS
- IoT device and COMPASS included free of charge during the AirCare period

Energy Efficiency & Cost-Effectiveness

- Combination of a new rotor profile with integrated intercooling and variable speed control for maximum energy efficiency
- Up to 15% energy savings compared to single-stage systems
- Durable, reliable, and exceptionally robust
- Up to 10 years AirCare warranty

Application & Maintenance

- Ideal for a wide range of industrial applications
- Easy maintenance thanks to a well-designed machine layout
- Reduced maintenance effort due to durable components
- Condition monitoring via IoT device and COMPASS (optional)
- **Application:** Industrial
- **Cooling:** Air-cooled (standard) or water-cooled (optional)
- Designed for continuous operation

V-DRIVE T

EFFICIENCY THAT PAYS OFF

Single-stage compressor

Standard technology

Volume flow rate @8,0 bar	33,00 m³/min
Motor rated power	200 kW
Input Power	231,14 kW
P spec.	7,00 kW (m³/min)
Air demand / Year*	15.840.000,00 m³
„Load“ Hours / kWh	8.000h
Energy costs / kWh	0,30 €/kWh
„Load“ Costs / Year	554.736,00 €

V-Drive T 48

ALMiG Innovation

Volume flow rate @8,0 bar	44.35 m³/min
Motor rated power	200 kW
Input Power	252.6 kW
P spec.	5,70 kW/(m³/min)
Air demand / Year*	15.840.000,00 m³
„Load“ Hours / kWh	5.953 h
Energy Costs / kWh	0,30 €/kWh
„Load“ Costs / Year	451.091,77 €
„Load“ Cost savings / Year	103.644,23 €
„Load“ Cost savings / Day	287 €

Two-stage
compression

High-efficiency IE5 motor
Low service and maintenance costs
Optional heat recovery system

287 €
cost savings
per day

*8,000 operating hours per year, based on the compressor with the lower delivery volume.

V-DRIVE T

PERFORMANCE FROM INSIDE

High-performance intake filter
Optimal filtration and easy maintenance

Two premium permanent magnet motors
High efficiency and long bearing life

Compressed air cooler

Two-stage compression principle
with oil-injected intercooling

Robust base frame
Torsion-resistant with vibration decoupling

AirControl Advanced
Intelligent control system that monitors, visualizes, and documents

V-DRIVE T

PRODUCT VARIATIONS

50 Hz								
V-DRIVE T	Operating pressure	Volume flow rate according to ISO 1217 (Annex C-2009)*		Motor rated power	Length	Width	Height	Weight
		min.	max.					
Model	bar	m³/min	m³/min	kW	mm	mm	mm	kg
20	5 - 13	7,27	20,28	2 x 45	2400	1800	2000	3800
24	5 - 13	8,39	22,60	2 x 55	2400	1800	2000	3900
30	5 - 13	11,61	29,64	1 x 55 / 1 x 75	2800	2000	2000	4400
38	5 - 13	13,56	35,70	1 x 75 / 1 x 90	2800	2000	2000	4600
48	5 - 13	18,48	45,58	1 x 90 / 1 x 110	3200	2100	2100	7250
60	5 - 13	20,18	56,19	2 x 132	3200	2100	2100	7550

*V based on operating pressure of 8 bar at 50 Hz

V-DRIVE T

QUALITY AND INNOVATION MADE **IN GERMANY.**

Decades of experience

ALMiG is a leading provider in compressed air technology with decades of experience. Companies worldwide rely on our customer-focused solutions, quality, innovation, and flexibility. Our compressor technologies deliver excellent performance, high energy efficiency, and conserve resources.

Continuous development

Continuous research and development form the foundation of ALMiG's efficient systems. With our industry expertise, we offer tailored solutions for all company sizes—from craft businesses to large-scale industries.

Comprehensive service

ALMiG offers comprehensive services—from consulting and maintenance to optimizing energy efficiency. As a reliable partner, we support the success of our customers.

Environmental awareness

ALMiG focuses on efficiency and sustainability. We continuously develop energy-saving and environmentally friendly compressors with improved performance. Our oil-free compressors and compressed air treatment components are constantly optimized to minimize environmental impact.

ALMiG AiRCARE WARRANTY

Extend the warranty of your compressed air system for up to 10 years – giving you complete peace of mind.

The ALMiG AiRCARE package gives you the opportunity to claim defect remediation even after the statutory warranty period has expired. Keep full control over your service costs and avoid unpleasant surprises.

What makes ALMiG AiRCARE special is that this extension not only covers the newly purchased ALMiG compressor(s), but also includes related components such as:

- External heat recovery modules
- Refrigeration dryers
- Adsorption dryers
- Oil-water separation systems
- Condensate drains

With a clearly defined budget, you can perfectly combine our maintenance packages with the AiRCARE warranty extension to accurately map out the lifecycle costs of your compressed air system in advance.

The AiRCARE warranty also includes:

- Immediate repairs
- Required spare parts delivery
- Labor time for diagnostics and compressor repairs
- Travel costs within a maximum distance of 100 km and a one-way travel time of up to 2 hours are included in the AirCare package

Secure our AiRCARE warranty extension right at the time of purchase or within the first three months – and don't miss out on this unique opportunity to benefit from our comprehensive warranty package.

Don't hesitate to ask your ALMiG specialist about the exact terms and conditions.

Join the many who trust in the AiRCARE package – for up to ten years of protection.

SUSTAINABILITY IN COMPRESSED AIR TECHNOLOGY

Social commitment

As a leading manufacturer of compressed air systems, we combine economic success with environmental responsibility. With innovative technologies and sustainable initiatives, the company sets new standards in the industry while consistently pursuing its environmental goals and strengthening its position as an innovation leader.

Social responsibility

We support our employees with training and health initiatives and place great importance on work-life balance as well as a positive work environment.

Future through Innovation

Innovation drives ALMiG's sustainable future. Through continuous investment in R&D, we develop energy-efficient, environmentally friendly technologies.

Efficiency and Environmental Awareness

Our products combine top performance with energy efficiency. Through innovative compressed air solutions, frequency-controlled compressors, and intelligent control systems, we minimize the energy consumption and CO₂ emissions of our customers.

ISO 14001:2015 Certification

Our certification according to DIN EN ISO 14001:2015 confirms our commitment to environmental management and sustainability. It ensures that we systematically pursue and continuously improve our environmental goals.

Water Resources Management

Water is one of our most valuable resources. At ALMiG, we place great importance on minimizing water consumption in our production processes.

Sustainability in Production

We rely on sustainable production processes and reduce the consumption of water and energy. Our manufacturing is continuously optimized to minimize waste and emissions.

People and Society in Focus

ALMiG is committed to fair working conditions, employee health, and social projects in the region to jointly promote sustainable change.

Sustainable Partnerships

ALMiG collaborates with partners to promote sustainable solutions and take ecological responsibility along the entire value chain.
